IIE/West Coast

Global Voices 2011-2012

The Global Voices Program brings distinguished international leaders into local Bay Area classrooms, offering a unique and invaluable learning experience for students and teachers. International Visitor Leadership Program participants and Fulbright scholars from around the world meet with students from a wide variety of Bay Area schools, ranging from grades K – 12, with a particular commitment to outreach in diverse and underprivileged institutions.

Through Global Voices, visitors engage in face-to-face exchanges, which increases students' understanding of current international affairs and enhances their awareness of world cultures, geography, and languages. In turn, international visitors have the opportunity to observe the U.S. educational system and engage in dialogue with students and teachers in an interactive and personal setting.

When planning school visits, we work with teachers to coordinate our visitors' interests with the classroom curriculum. A classroom visit usually lasts 60 minutes, during which the visitors are asked to speak about their country and area of work, and participate in an interactive question and answer period with students. Topic of conversation is flexible and may vary depending upon the age of the students.

Thank you for your interest in bringing international visitors to your school through the Global Voices Program! Please fill out the form below to give us more information about your school.

SCHOOL CONTACT INFORMATION

Your Name: _____

Your Position: _____

Your Email Address: _____

School Name: _____
