Instructions for Completing the Graduate University Application

Please read all instructions carefully before completing the online application.

STEP 1: Learn requirements for submitting an application

Before you begin this application, visit the scholarship web site at: www.iie.org/EssoAngolanScholars

STEP 2: Record user ID and password in a safe place

Your email address is your user ID. When you create an account for this on-line application, you must identify a password. Keep this information in a safe place. You can log in and out of the application as frequently as you like; however, you must have your user ID and password. While you cannot change your User ID, if necessary, you can change your password by clicking on "Update My Account" at the top of the Home page of this application.

STEP 3: Complete the application

You do not need to complete this application in one sitting. You can re-enter at anytime and edit your application. But remember that once you submit your application, you cannot make changes to it.

All forms in this application are to be completed in English. Items must be answered completely and carefully. Some helpful "tips":

- Avoid using all capital letters when answering items; for example, name, address, etc. It is better to use upper and lower case, e.g. Ron Smith.
- You can copy and paste information into all text boxes.
- In the text boxes, you **must limit your responses to the space provided**. Note this carefully, as information that exceeds the space provided will not display or print. If what you have typed or copied exceeds the size of the box, you must edit it to fit within the provided space.
- You can review each page of the application in its PDF format by clicking on the **Preview** button in the upper right-hand corner of the page. Be sure to review your application so that you can be sure all of the text is visible.
- Closing out of the PDF view will bring you back to your application.
- You will create a 'study objective' essay on page 4 and a 'personal statement' essay on page 5. On the essay pages, text entered that exceeds the space provided will display and print. However, it is recommended that you try to keep your essays to one page when possible.
- On page 6, please post a professional resume or curriculum vitae.
- There are several ways in which you can create your essays and resume.
 - You can compose your essay online. Please note there is a 40-minute 'time out' function. In other
 words, you will need to either complete your essay in 40 minutes or periodically save your essay. You
 will not be able to customize the formatting of your essay.
 - You can copy and paste text from another document and edit online. Again, you will have a 40-minute "time-out" function. You will not be able to customize the formatting.
 - You can upload text from another document. This is the only option where you will be able to have special formatting, e.g. bold, underline, headers, double-spacing, etc. While you cannot edit an uploaded document on-line, you can delete your upload, make your corrections in your document offline, and upload again.

- You must leave a 1½ inch (4 cm) top margin on every page of your uploaded essays to allow space for the header that will appear on the print version of your application.
- Please click the PREVIEW button on the essay pages to review how your essay. You must use the "Back" browser button to return to your essay. Closing out of this view will cause you to exit the application.
- Some questions are required. You will not be able to complete and submit your application until all required items are completed. When you click on the **Application Inspector** button on the Home page, your application will be checked for completeness. You will be prompted to enter any missing information on required questions.
