## Harness the Power of International Education with an IENetwork Membership

The IENetwork is IIE’s long-established global membership association of over 10,000 international education professionals from more than 1,500 organizations and institutions.

International education services are not only our area of expertise – they are our passion. Through the IENetwork, we share our extensive knowledge and decades of experience with others who are working to strategize and actualize international education efforts on their campuses and in their organizations, including building international and academic partnerships, recruiting international students, and advocating for study abroad and student mobility.

Members of the IENetwork have access to outstanding and informative resources, including exclusive research data, a weekly newsletter, the IENetworker magazine, and IIE’s 17 offices and affiliates around the world. Members receive discounts on select IIE events and services and, most importantly, become part of a network of professionals – ranging from study abroad directors to international student advisors to university presidents, and more – who share best practices, create international linkages, and establish strategic partnerships.
