We live in an age of astonishing connections, with limitless occasions for people to interact, to learn, and to share across thousands of miles. At IIE, we believe that when education transcends borders and opens minds, it enables people to go beyond building connections to solving problems together.

Addressing the global challenges we face will come from the sharing of ideas and research that international education promotes and encourages. As a world leader in international education and exchange, IIE advances scholarship, builds economies, and promotes access to opportunity for all people.

From creating and delivering innovative scholarship and exchange programs to providing a lifeline to scholars, students, and artists impacted by global crises, we help people and organizations thrive in today’s interconnected world.
