ENU is one of the leading universities of Kazakhstan in realization of exchange students’ program. The network of ENU partners includes more than 100 universities around the world where students can go and from where students are coming to us.</p>	
<p><b>Partnership Interests:</b> <i>(e.g., faculty exchanges, student exchange, dual degrees, joint research, distance learning, etc.)</i>          Exchange of students, faculty; double diploma programs</p>	
<p><b>Interest in Partnership:</b> Why are you interested in partnering with a U.S./Kazakh institution? What do you hope to gain from such a partnership?</p> <p>- Partnering with U.S. universities provides access to a pool of talented researchers, students, and faculty members who can contribute to research and development efforts. Such as:</p> <ol style="list-style-type: none"> <li>1. Internship for PhD and masters of Kazakhstan universities, who has financial support from the Ministry of Education and Science of the Republic of Kazakhstan and universities.</li> </ol>	

2. Students exchange:
- a) Kazakhstan students have good financial support from the Ministry of Education and Science of the Republic of Kazakhstan and universities that's covered the expenses for travelling, accommodation, visa and medical insurance.
  - b) Students from USA can visit ENU in the framework of academic mobility for one semester without any fees, at the same time ENU provide free accommodation.
3. Academic exchange. Lecturing and training for Kazakhstan and U.S. faculties with financial support from the Ministry of Education and Science of the Republic of Kazakhstan and ENU
4. Developing double diploma programs in for preparation the qualified specialist for the economy of both countries. For example, in a partnership between Eurasian National University and a U.S. institution, students might have the opportunity to pursue a program where they earn a degree from both institutions. Graduates of double diploma programs often have degrees recognized in both countries, enhancing their mobility and employability on a global scale.
- Universities are hubs of innovation and research, and collaborating with them can lead to new insights, discoveries, and breakthroughs.
  - Collaborating with a U.S. institution can facilitate academic exchange programs for students and faculty. This exchange can expose ENU's students and faculty to different educational systems, teaching methodologies, and research opportunities, enriching their academic experience.
  - Partnering with a U.S. institution can open doors for joint research projects. The U.S. is home to many leading universities and research institutions across various fields. Collaborative research can lead to advancements in knowledge, technology, and innovation.
  - Collaborating with a U.S. institution aligns with ENU's goal of internationalization. It can enhance the global reputation of ENU and increase its visibility on the international stage, attracting students and faculty from diverse backgrounds.
  - Partnering with a U.S. institution can provide access to resources such as funding, expertise, and infrastructure that may not be readily available at ENU. This can support the development of new programs, research initiatives, and academic facilities.
  - Collaboration with a U.S. institution promotes cultural exchange and understanding between Kazakhstan and the United States. It fosters cross-cultural communication, tolerance, and appreciation for diversity among students, faculty, and staff.
- Overall, partnering with a U.S. institution can help ENU achieve its goals of academic excellence, research innovation, internationalization, and cultural exchange, ultimately benefiting its students, faculty, and the institution as a whole.
