

KAZAKH-BRITISH TECHNICAL UNIVERSITY

Quick Facts

Location (city, state): Almaty, Kazakhstan

Website: <https://kbtu.edu.kz/en/>

Undergraduate student enrollment: 5334

Public/Private: Private

Graduate student enrollment: 964

Type of Institution: University

Institutional Description (limit 250 words):

Kazakh-British Technical University (KBTU) is one of the leading technical universities in the region, engaged in research, education, and the training of scientific elite and skilled professionals for various sectors of the global economy. The university's programs are taught exclusively in English.

The bachelor's, master's, and PhD programs at KBTU adhere to international quality standards, as confirmed by reputable international accreditation agencies such as IQAA, ABET, ACBSP, and CAAAE. Several educational programs hold professional accreditations from CFA, CIMA, ACCA, and others.

Partnership Information

Possible Academic Areas of Collaboration:

Geology, Energy, Oil, and Gas Engineering, Information Technology and Engineering, Natural Sciences, Social Sciences, Business and Management, Economics, Maritime Studies and Engineering, Applied Mathematics and Computational Sciences, Chemical Engineering, Materials Science and Engineering, Green Technologies and Sustainable Development.

Institutional Strengths:

Comprehensive Academic Offerings: KBTU provides a diverse range of academic disciplines, fostering interdisciplinary collaboration.

International Accreditation: Accredited by esteemed international agencies like IQAA, ABET, ACBSP, and CAAAE, ensuring global academic standards. KBTU holds international accreditations such as ABET for IT programs and ACBSP for business school programs, indicating our commitment to academic excellence.

English-Medium Instruction: All programs taught in English, facilitating global integration and cross-cultural exchange.

Professional Accreditations: Various programs hold accreditations from prestigious bodies such as CFA, CIMA, ACCA, enhancing industry relevance.

Sustainability Focus: Emphasis on Green Technologies and Sustainable Development aligns with global trends, preparing students for future challenges. In 2023, KBTU signed a cooperation agreement with Kazakh National Agrarian Research University to promote scientific and technical cooperation, particularly focusing on IT technologies for the agro-industrial complex, ecology, water, forestry, and land management.

Partnership Interests: *(e.g., faculty exchanges, student exchange, dual degrees, joint research, distance learning, etc.)*

Faculty Exchanges: Collaborating on faculty exchanges to facilitate knowledge sharing and professional development opportunities.

Student Exchange Programs: Establishing student exchange programs to promote cultural exchange and broaden academic perspectives.

Dual Degree Programs: Developing dual degree programs to offer students the opportunity to earn degrees from both institutions simultaneously.

Joint Research Initiatives: Engaging in joint research projects to address complex challenges and advance knowledge in key areas of mutual interest.

Professional Development Workshops: Organizing workshops and seminars to enhance the skills and expertise of faculty members and students.

Internship Opportunities: Providing internship opportunities for students to gain practical experience and industry exposure.

Industry Partnerships: Establishing partnerships with industry stakeholders to facilitate collaborative projects and enhance the relevance of academic programs.

Interest in Partnership: Why are you interested in partnering with a U.S./Kazakh institution? What do you hope to gain from such a partnership?

Partnering with a U.S. institution presents a unique opportunity for KBTU to enrich its academic environment, foster global collaborations, and enhance its standing as a leading technical university. We are particularly interested in such partnerships for several reasons:

Academic Excellence: Collaborating with esteemed institutions allows us to exchange best practices, methodologies, and resources, fostering academic excellence and innovation in teaching and research.

Cross-Cultural Exchange: Partnering with institutions from different cultural backgrounds promotes cross-cultural understanding, diversity, and tolerance among our students, faculty, and staff.

Global Perspective: Engaging in partnerships with U.S. institutions broadens our global perspective, exposing our community to diverse viewpoints, approaches, and experiences.

Research Collaboration: Collaborative research initiatives enable us to tackle complex challenges and address emerging issues by leveraging complementary expertise and resources from partner institutions.

Student Opportunities: Partnership programs offer our students unique opportunities for international exposure, experiential learning, and personal growth through exchange programs, joint degrees, and internships.

Professional Development: Collaborating with U.S. institutions provides avenues for professional development for our faculty and staff, including training workshops, conferences, and joint research projects.

Main Partnership Contact: (name, title, email):
