SECTION 6: ANNUAL RENEWAL:

Annual Renewal: Selection(s) may be renewed annually, at IIE’s sole discretion, for up to five years before re-competition. IIE reserves the right to exercise any one of the following options:

- Accept the updated proposal if changes are reasonable and within the scope of the original selection;
- Negotiate any updates/changes; or,
- Decide not to renew.
IIE is seeking a vendor to provide software and other related products that enable IIE’s international participants to comply with US income tax laws. IIE’s international participants typically visit the US on J-1 visas to participate in academic or professional exchanges. Participants must file federal and state tax returns as necessary.

IIE’s requirements are divided into two categories: products and services in support of IIE and products and services in support of IIE’s international participants.

1. Products and services in support of IIE:
   - Online system for participants to generate federal and state tax returns that is geared towards participants who are J-1 visa holders, including, but not limited to, students, scholars, teachers, and, in some cases, their dependents. The online system should accommodate international participants in other visa categories as well. The exact number of participants may vary and is subject to change but on average is at least 4,000 annually.
   - Instant access to data to verify important information such as residency for tax purposes, tax rates, and applicable tax treaties. IIE is not requesting access to information or documentation that would require IIE to obtain a Power of Attorney from the grantee.
   - Report that tracks participants’ progress in completing tax returns.
   - Report that identifies participants who owe IIE refunds from IIE taxable income and tracks if the IRS has processed tax returns.
   - Ability for IIE to upload users into the online tax system.
   - Ability to generate 1042-S forms and provide guidance to IIE on tax withholding.
   - Training IIE team members regarding the use of the dashboards and reports and any other features geared to IIE.
   - Ability to create ITIN applications (W-7 form) on behalf of participants and provide information on how to apply for an ITIN.

2. Products and services in support of IIE’s participant users:
   - Simple interface suitable for non-native English speakers.
   - Embedded guidance that breaks down complicated tax regulations into plain English without abbreviations or jargon.
   - On-demand Q&A / live chat support from tax experts.
• System that is accessible with low-band internet connectivity

• System-produced forms provided upon completion of questions by individuals, for participants to print and submit by mail AND the capability to e-file when eligible

• Online system that has a mechanism to upload tax documents required by the selected vendor so grantees can complete tax returns including, but not limited to, passports, 1042-S forms, and any other required income documents.

• System notification for participants if a state tax return is required. If required, the system must walk the grantee through the filing process.

• System ability to send notifications and reminders to participants who have created a profile in the system

• Participants should not have to download any software from the selected vendor

• In advance of the tax season, training and guidance in the format of a webinar and training documents on the completion of tax returns, is available to IIE and participant users remotely

The following are not requirements but would be potentially helpful additions:

• Some level of integration with IIE’s Participant portal (Microsoft Dynamics CRM) so participants do not have to upload documents (such as passports, SSNs) in multiple places
ATTACHMENT B COST PROPOSAL TEMPLATE

Submit a detailed budget for the services described in the technical proposal. IIE’s review of the cost proposal shall determine if the overall costs proposed are realistic for the work to be performed, reflect a correct understanding of the project requirements, and are consistent with the Offeror’s Technical Proposal.

The following format may be used as a guide to assist you in preparing the cost proposal. You may submit the cost proposal using this form or in the format of your choice (plain sheets, your own form, or a variation of this form). The Offeror may list any cost line items, but it is recommended that the Offeror follow the major categories listed below, breaking down all “lump sum” items as much as reasonably possible.

ATTACHMENT C - ADDITIONAL REQUIREMENTS

Third-Party IT Risk Management Process (TPRM)

An IT Security Questionnaire is required prior to signing a contract if the vendor will process IIE proprietary data or Personal Data according to GDPR’s definition on behalf of IIE or connect to IIE’s network.

- Vendors who can furnish evidence of an ISO 27001 Certification are asked to attach such documentation and to provide their up-to-date System and Organization Controls (SOC) 2 Type 2 Attestation.

- Vendors who cannot furnish IIE with ISO 27001 Certification evidence will be asked to provide a SOC 2 Type 2 attestation and complete a security assessment that is mapped to the National Institute of Standards and Technology (NIST) Cyber Security Framework (CSF). NIST is a guidance, based on existing standards, guidelines, and practices for organizations to better manage and reduce cybersecurity risk. The NIST CSF consists of five concurrent and continuous Functions—Identify, Protect, Detect, Respond, Recover. When considered together, these Functions provide a high-level, strategic view of the lifecycle of an organization’s cybersecurity risk management.

- If your organization does not wish to complete this request using the automated OneTrust platform, please visit the “Welcome” screen of the IT Security Questionnaire (using the emailed link from OneTrust) and click “Complete Offline Using Excel” to download the Excel version of the NIST CSF assessment. Please make sure to upload the completed file to OneTrust using the same path and Submit.

Prohibition on certain telecommunications and video surveillance services or equipment

IIE cannot enter into a contract to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

Covered equipment and services must not be part of your offer to IIE.
