|---|

**Possible Academic Areas of Collaboration:**
Collaboration opportunities flourish in exploring financial management systems in U.S. and Kazakh universities, entrepreneurial models in higher education, research and commercialization best practices, public-private partnerships in research, and integrating financial sustainability principles. By fostering cross-cultural exchanges, sharing best practices, and engaging in joint initiatives, we can enhance financial transparency, promote entrepreneurship, drive innovation, and ensure the long-term sustainability of both educational and research endeavors. Such collaborations not only benefit individual institutions but also contribute to the advancement of higher education on a global scale.

**Institutional Strengths:** The institutional strengths of the School of Information Technology (SoIT), lie in its dedication to fostering innovation, research, and hands-on experiences in IT education. The School of Information Technology stands out for its highly-ranked and accredited degree programs, both at the undergraduate and graduate levels. Its commitment to excellence is evident through the diverse array of degree offerings tailored to prepare students for successful careers in the dynamic field of IT. Furthermore, the School houses research centers that provide opportunities for students to work alongside faculty on real-world problems and explore new initiatives. The institution's focus on student success is underscored by programs such as the Student Success Program, designed to empower students for optimal academic achievement, and the

emphasis on student organizations that foster collaboration and innovation. Additionally, the dedication and expertise of the faculty and staff contribute significantly to the exceptional academic experience offered by the institution.

**Partnership Interests:** *(e.g., faculty exchanges, student exchange, dual degrees, joint research, distance learning, etc.)*

We are interested in partnership collaborations such as faculty exchanges, student exchanges, dual degrees, joint research, and distance learning to foster international collaboration, promote cultural exchange, and drive innovation in education and research.

**Interest in Partnership:** Why are you interested in partnering with a U.S./Kazakh institution? What do you hope to gain from such a partnership?

We are interested in partnering with a U.S./Kazakh institution to leverage diverse perspectives, foster collaborative research initiatives, exchange best practices, and enhance educational opportunities for students, ultimately promoting cultural understanding and driving innovation in both academic and research domains.
